One dashboard. One easy sell.

Help your customers control their connected home and get things done from a single dashboard. With Nest Hub and Nest Hub Max, they can see and control compatible smart home devices and get help from Google throughout the day. And offering Nest Hub or Nest Hub Max on each job is a simple way to build your connected home business.

Google Home Mini Give them hands-free help in any room.

Google Home Mini is powered by the Google Assistant, so your customers can ask questions, stream music, and control compatible connected home devices with their voice.3 It even recognizes different voices, so answers are personalized for them.⁴ Google Home Mini works on its own, or your customers can have a few around the house.

Google Wifi

Strong coverage for the connected home.

Offer customers a new kind of Wi-Fi solution that provides reliable coverage in every room and on every connected device. It's incredibly easy to install, so you'll be on your way to your next visit in no time. Set your customers up for success with Google Wifi, and you'll be in a great position to add additional connected home products like Nest Cams and Nest thermostats

Let's build the helpful home together.

Become a Nest Pro at g.co/nest/pro.

2 Home size, wall thickness and non-standard layouts may require extra Wifi points for full coverage. Signal strength and speed depends on user's internet service provides ³Music subscription required.

*Voice Match requires additional setup and enrollment, and supports up to six users. When using Voice Match, keep in mind that a voice similar to yours, or a recording of your voice, could result in Google incorrectly recognizing someone else as you

G Nest Pro

Bring the helpful home to your customers.

Google Nest is in more and more homes all the time. And you will be, too. Add Google Nest products to your portfolio and get more value at every visit.
